

CAMBRIDGE ASSESSMENT INTERNATIONAL EDUCATION

ONLINE TRAINING

We believe that supporting teachers in their professional development leads to improved outcomes for learners. Good quality training and reflective practice are essential parts of a teacher's professional life.

A total of 15 teachers from Al Muntazir Boys Primary School are doing various Cambridge Online training based on their specific subject areas. The teachers work closely with their peers in the school as well as international colleagues who are pursuing the same courses under the guidance of an experienced Cambridge tutor.

We look forward to the successful completion of the course which would allow teachers to share ideas and experiences internally for better implementation of the Cambridge Curriculum.

Teachers get together to discuss learning units and share ideas
