

International Friendship Day Celebration

Friendship is not a big thing... It's a million little things

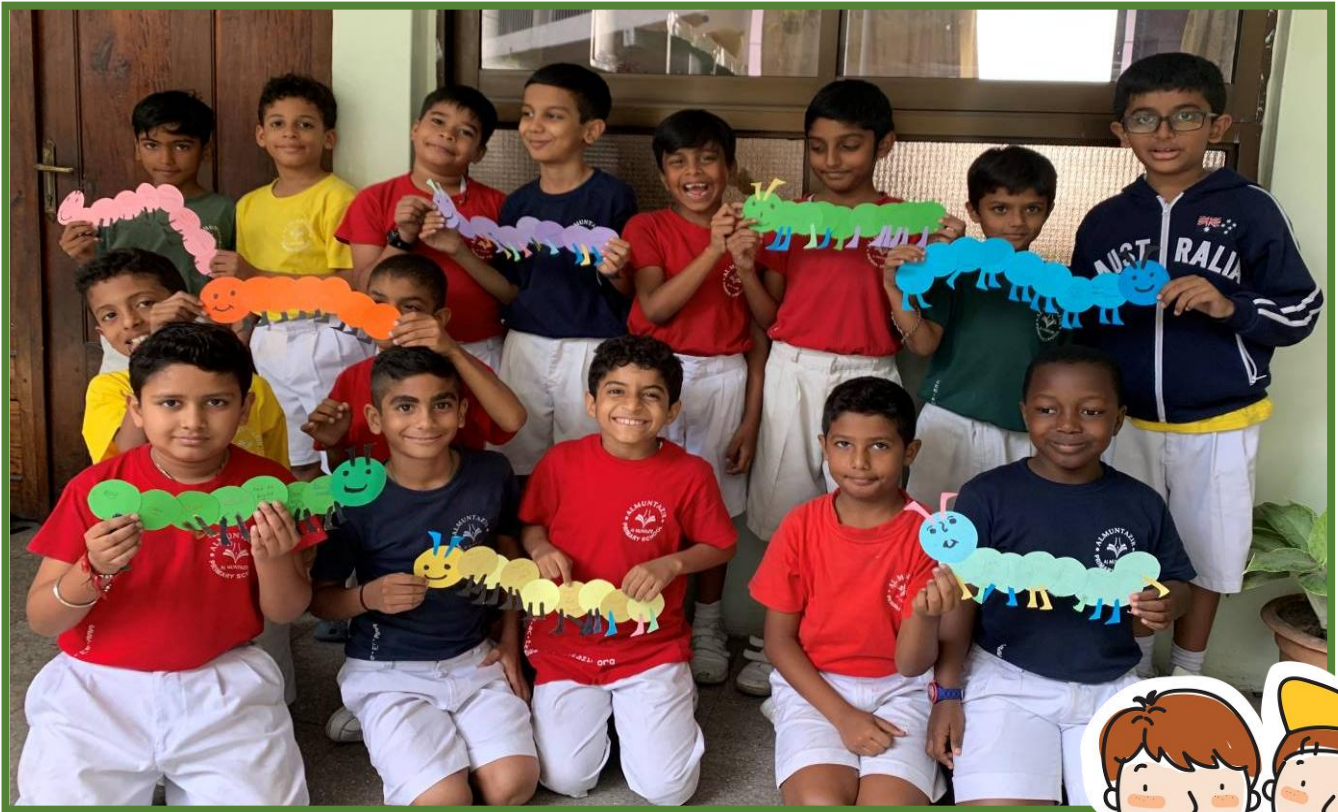

The tie of friendship is one of the most precious connections in life. To celebrate this unbreakable bond, there is a day dedicated to it which is named as the International Friendship Day, celebrated on 30th of July across the globe.

The idea behind celebrating Friendship Day is to promote friendship and fosters care among all humans regardless of their race, religion, ethnicity.

Our lower school students commemorate this special day by doing some class activities with their best friends. The day was consciously planned to promote strong ties of trust in young learners. Grade one children had a go at making friendship badges. They chose their own colors and friends exchanged the badges. Grade two Boys Expressed their gratitude towards their friends by sharing Friendship bands with each other.

Grade 3 Boys worked together to make a friendship caterpillar and talked about what makes a good friend and what friendship means.

The day generated passion among the boys for a better world where "all are united for the greater good."

Grade 3s with their Friendship caterpillar

Happiness reflected on their faces as they spoke about friendship

A Band-That embodies the friendship

Friendship Badge - symbol of trust
