

## Lifesaving careers Grade 3

The mere mention of life-saving careers for primary school students usually evokes a variety of reactions, ranging from wonder to awe. Young students need some early exposure to numerous types of work that exists in our complex society.

At Al Muntazir Boys Primary School an entire day was set aside for grade three students to meet professional Lifesavers on 15<sup>th</sup> August. The professionals spoke to grade 3 students to learn first hand how each Professional practices lifesaving in different sectors of service. The Careers day was concluded with an assortment of activities related to life-saving careers.

Overall this event broadened the students' horizon and helped them learn about the different ways in which these career path benefit our communities and the Universe as a whole.

**Fire Department officer Mr. Gift explaining essential steps during fire fighting**

**Doctor Fatema  
in  
conversation  
with the  
students**

**Head Nurse  
Mrs.Tabassum  
Speaking about  
lifesaving in the ICU**

**Senior Sargent  
Edwin  
Talks about his  
role**
