

## Community HELPERS

We live in a society where everyone is dependent on each other for one or more works. There are many types of helpers around us and we all regularly require their help. So it is very important for young students to know the ways in which community helpers touch their lives. It also helps them to appreciate community helpers' work. Students can help them to do their jobs better if they understand the role of the community helpers.

On 14<sup>th</sup> August Grade one team of teachers hosted a community helper dress-up as part of their Careers day. This program was organized to provide real-world understanding and an in-depth look at community helpers' careers. Children came to school dressed up in their job profession of choice. Many creative jobs included artists, chefs, police officers, and mail carriers just to name a few. Various class extension activities were conducted to spark imagination in little ones as they explored what they want to be when they grow up.
