

STAFF SCOUT TRAINING

*“Leave this world a little better than you found it”
– Lord Robert Baden Powell*

The staff at Al Muntazir Boys Primary School were invited for a Preliminary Training Course by the Ilala Municipality in collaboration with the Scouts Association of Tanzania.

The training focused on enabling staff to facilitate scouting events at the school as well as support students to develop various skills that make them responsible citizens. Furthermore, teachers were taught various methods with which they can identify challenges faced by students and how to assist them to overcome them in order to develop themselves holistically.

The teachers acquired new knowledge and skills along with hands on strategies for their students learning which allowed them to create an action plan for facilitating a scouts camp for the students at the school.

It was a successful 3 day intensive training program conducted at the Segerea Secondary School.
