

PARENT TEACHER CONFERENCE

Connecting Home and School makes us a community of great learners!

As part of the school's efforts to build a strong partnership between parents and teachers the Al Muntazir Boys Primary school held its PTC on Friday, 27th September 2019, with a 90% attendance rate.

Having a parent teacher conference is important for students, caregivers and educators alike in order to discuss the child's progress in school.

Giving and receiving about your child is crucial at parent-teacher conferences parents can help teachers by providing them with key information regarding their child's personality, strengths, weaknesses and home life. Knowing of such changes will help the teacher provide the child with the necessary support in the classroom. By preparing in advance, parents can make the most of the time with their child's teacher.

Whether your child is having a positive or negative experience in school, parent-teacher conferences help us in finding ways to work together to ensure your child's success.

We thank all parents who attended and ensured a successful conference.
