

## ISO 9001:2015 STANDARDS

ISO 9001 is an international set of requirements that provide the framework to monitor and control quality processes.

The Al Muntazir Schools are ISO Certified and to reinforce that all employees are performing to their best ability in their specific area of expertise, an orientation of the policy and its compliance was given to all staff who have joined us in 2019. The orientation is to help new employees adjust to their jobs, understand expectations, and begin with a positive work attitude. It is important to convey the Institution's commitment to quality, improvement, and continual learning.

We hope to continue to comply with the high standards set for all our employees in delivering a holistic education to our students.
