

## **GRADE SEVEN COFFEE MORNING AT AMBPS**

The first Coffee morning of the academic year is for our elite class. The last year at primary can prove to be stressful and overwhelming and it is prudent for all stakeholders to be fully engaged and work together to support the child.

The Grade 7 parents were invited for a coffee morning on 22<sup>nd</sup> January 2020. The purpose of this session was to inform parents about the assessments and tests that children have to take and how to enrich and support their children's education.

The parents were warmly welcomed by our principal, Mrs. Shaimuna Chandoo, who reminded parents that we are all partners in their children's education and that the school is happy to support them on this journey. She encouraged parents to come in and discuss if they have any concerns so they can be given the appropriate assistance. This was followed by an introduction of the Grade 7 team and their respective roles. Thereafter, the Ward Education Officer, Mrs. Millenia shared some vital information on the National Examinations and its corresponding procedures. A short talk was conveyed by Mrs. Hedwiga and Mr. Jamal to stress on the importance of encouraging discipline within our children.

The session was concluded with an activity of self-reflection to help parents understand their greatest priorities. Following this, the Upper Deputy, Mrs. Zainab Parpia, and the Counselor, Mrs. Sakina Dharsee shared some tips to guide parents in choosing the right secondary school for their children.

To sum it up, parents appreciated the opportunity to learn more about this key year of their child's academic journey and thanked the school for their continuous support.
