Dear Parents

Salaam Alaykum

**RE: Health and Safety at School: Update.**

The Al Muntazir Schools take the health and safety of our children, our staff and our parents very seriously.

After detailed discussions with our School Leadership Team and our stakeholders, we would like to inform you that the **school shall remain open**, and the physical classroom learning will continue with the necessary precautions in place.

We do believe the measures taken by the school are reasonably effective in preventing the spread of the illness to our children and teachers. However, we also understand that some parents may want to keep their children home as a precautionary measure. To support such students, the school will be providing children with packs of learning materials and assignments (either online or physical). For our online portal, we will be using MS Teams to upload all necessary materials that will support the learning for the children while they are at home. You are requested to contact your school office for further information on the procedures and requirements for online support of materials. You will also be receiving updates on the online support for learning materials through the Edana School App.

We kindly urge you to adhere to the precautions laid down by the Health Authorities and educate your children on the same.

We remind you that if your child has fever or flu like symptoms including coughing or difficulty in breathing, please do not send them to school. In case a child is seen to have these symptoms while in school, we will isolate the child and will call you to pick them up immediately. You are also required to inform the school office if there have been any family members affected by any respiratory or infectious illness or are undergoing similar symptoms, and to allow the child of the family to remain at home for self-isolation for a period of 14 days.

We would also like to inform all parents that we have postponed all swimming activities, external field trips, extracurricular activities and face to face parental workshops until further notice.

The schools are taking all necessary precautions to ensure the safety of our children and our staff. This includes adequately equipped hand washing facilities and sanitizing dispensers, with constant reminders and enforcement on washing hands, continuous effort in enforcing of mask wearing or face shields, temperature checks, students sitting separately in classrooms and staggered breaks.

We will continue to monitor the situation and keep you informed. If you have any concerns or queries, please do not hesitate to contact the school directly.

We look towards your continuous support to face the challenges as 'Partners in Education'.

We continue to pray to the Almighty for Good Health and Safety for all of our community.

Yours Sincerely

KSIJ - CBE Board  
Al Muntazir Schools
